All American Jerr-Dan Wreckers and Carriers Announces Expansion of Commercial Truck Accessories Service Across Central New Jersey

August 17, 2026

OLD BRIDGE, NJ - August 17, 2026 -

All American Jerr-Dan Wreckers and Carriers has announced the expansion of its commercial truck accessories service for towing companies, roadside assistance providers, transport businesses, and municipal fleet operators throughout Central New Jersey. The expanded service is available in Old Bridge, Sayreville, East Brunswick, South River, Spotswood, Helmetta, South Amboy, Matawan, Perth Amboy, Marlboro, Monroe Township, Keasbey, Woodbridge, Manalapan, Edison, and surrounding communities.

According to the company, the expansion includes accessories for commercial tow trucks, wreckers, rollback carriers, and other commercial vehicles used in towing and transport applications. The accessories department forms part of the company's commercial truck operations at its Old Bridge location.

All American Jerr-Dan Wreckers and Carriers operates as an authorized Jerr-Dan dealer in Old Bridge, New Jersey. The commercial truck center includes departments for truck accessories, replacement parts, commercial truck repair, financing assistance, mobile service, and commercial tow truck sales.

Commercial towing vehicles are commonly fitted with accessories associated with storage systems, lighting equipment, vehicle organization, towing equipment, and related operational components. Installation may occur during vehicle preparation, scheduled maintenance, equipment replacement, or repair procedures, depending on vehicle configuration and operating requirements.

The accessories department includes products for Jerr-Dan wreckers, rollback carriers, and commercial tow trucks. Products are also listed for truck platforms manufactured by Peterbilt, Freightliner, Hino, and Dodge Ram.

According to the company, accessory selection varies according to vehicle configuration and the type of work performed. Vehicles assigned to roadside assistance, accident recovery, municipal towing, vehicle transport, and commercial hauling may require different accessory configurations based on operational requirements.

Truck accessories are available through the company's Old Bridge location during vehicle purchases, scheduled maintenance, or repair appointments. Accessories may also be installed during repair procedures when requested by commercial vehicle owners or fleet operators.

Commercial towing businesses throughout Middlesex and Monmouth counties operate fleets used for roadside assistance, accident recovery, municipal towing, commercial hauling, and vehicle transport. Storage equipment, lighting systems, protective accessories, and related truck equipment are commonly installed on vehicles assigned to these activities.

"Accessory requirements vary according to vehicle configuration and the type of towing operation," said the owner of All American Jerr-Dan Wreckers and Carriers. According to the company, the expansion relates to accessories used with commercial tow trucks, wreckers, rollback carriers, and related commercial vehicles."

Commercial truck repair, preventative maintenance, inspections, diagnostics, and mobile service are conducted through the company's service department. Mobile service is performed for qualifying maintenance and repair work when appropriate.

According to the company, the expanded accessories department contains products for commercial tow trucks, wreckers, rollback carriers, and related commercial vehicles. Product selection varies according to vehicle type, manufacturer, and intended application.

Businesses operating multiple commercial tow trucks may install storage equipment, lighting systems, protective accessories, and related truck equipment during vehicle preparation, scheduled maintenance, or repair work. Accessory selection may differ depending on fleet requirements and vehicle specifications.

The company stated that the expanded accessories service forms part of its commercial truck operations in Old Bridge. Truck accessories, replacement parts, commercial truck repair, financing assistance, mobile service, and commercial tow truck sales are all available from the same location.

Transportation activity throughout Central New Jersey continues to involve towing companies, roadside assistance providers, municipal fleets, and commercial transport operators. According to the company, the expanded accessories department was introduced to meet the accessory needs of commercial towing vehicles operating throughout the region.

Additional information regarding commercial truck accessories, commercial tow trucks, rollback carriers, wreckers, replacement parts, commercial truck repair, financing assistance, and mobile service is available through All American Jerr-Dan Wreckers and Carriers.

All American Jerr-Dan Wreckers and Carriers is an authorized Jerr-Dan dealer located in Old Bridge, New Jersey. The company operates a commercial truck center with departments for commercial tow truck sales, truck accessories, replacement parts, commercial truck repair, financing assistance, and mobile service for towing companies, roadside assistance providers, transport businesses, and municipal fleet operators throughout Central New Jersey.
